

## Recommended Wages for Child Care in Day Families

The *familyservice* recommends the calculation of an hourly wage according to the following wage tariffs:

### Care relation on a private basis

Per child and hour (up to 2 days a week/child) **CHF 5.00 – CHF 15.00**

### Care relations via a day family association

Day family association tariffs per child and hour **normally CHF 5.00 – CHF 10.00**

In some towns or municipalities, parents can apply for a reduced tariff. This only applies to care relations which are arranged by a local day care association or a similar municipal agency. The hourly tariff is calculated according to the gross family income of the parents. The exact ranking of the parents is calculated according to the local tariff system.

### Care Breaks

If the child is absent for more than two hours during working hours (kindergarten, school, etc.), the day mother receives half of the hourly tariff during the care breaks.

### Lunch

Lunch care is when a child is only with the day family at lunch time, i.e. from around 12:00 to 13:30, and is given its lunch there.

Flat rate for lunch including care **CHF 13.00 – CHF 15.00**

### Staying Overnight

When staying overnight, the hours from 20:00 to 06:00 will be remunerated at a flat rate.

Overnight flat rate per night **CHF 10.00 – CHF 50.00**
